## BEASTIALITY STORIES

You see, my friend and I were in the Army together. We were about 20 when he told me this story about his mother. As a child, they lived on a farm where his father raised and bred animals mostly donkeys. He did not know what they were raised for, only that his dad made much money from this business. His father had died of some rare cancer that quickly took his life when my friend was a young boy. He was sent to stay with an aunt in the city and could not see his mother very much as she would always visit and spend time with him at his aunt.

After high school, he joined the Army.

For some reason, his mother had lost the farm, and she had not told him why only saying something to the effect that she would explain later, and had recently moved into the city. The area where she was living was a very depressed area that had low-income and mostly single-parent families. This part of the city was all black or mixed couples, mostly white women and black men! When he was home on leave, he had gone to stay with his mother; this is the story he told me.

\*\*\*\*

Late one night he had woken up to some strange female noises. He discovered it was coming from his mother's room after investigating. Being curious, had ventured closer as her door was slightly ajar, as he peered in through the crack and could see his mother's TV. It had a video running. This video was of a white woman naked out in some sort of barn, bent over and being screwed by a black man with a very large cock! Fascinated, he continued to watch as another black man appeared and took the first one's place, obviously giving her a very hard fucking. At the peak of this scene, his mother also peaked with wanton groaning pleasure.

After a while, they took this woman into one of the horse stalls, and when they did, he was shocked to see that the woman was his mother! They had placed her on a hay bale in the barn with her bottom in the air.

An animal that appeared to be a donkey was led in, and after a few moments of guidance and messing with his flaccid cock, it had become really big and hard. He then really started humping the crap out of his mom! His mother was blissfully unaware of his presence and again was enjoying herself as she masturbated to orgasm! He did not know what to think as he quickly returned to his room!

This vision of his mother masturbating, along with the video of two big black men and a donkey fucking her, was quite unsettling and perverse as he tried to go back to sleep. The problem was that my friend had acquired a hard-on and was quite shamefully stimulated by what he had seen!

It was so bazaar and kinky, plus the fact that he had not only caught his mother pleasuring herself, but she was also watching this most unnatural and taboo sexual video of his mother!

\*\*\*\*

One Friday night, after being there about a week, a few tenants had gotten together for drinks and to watch a football game. His mother was about 50. She was of Italian descent, had black hair and brown eyes, stood 5'5", was quite petite, and weighed 118 pounds. She had nice big 38 DD-sized breasts and seldom wore a bra. She had a slender waist and a very full, round-shaped bottom. She was not plump, but she looked good for a woman her age.

From the back, one would have sworn she was a young woman. Her only real unattractive side was

that she was a chain smoker and almost always had a lit cigarette in her hand or close by. Her name was Anna.

She had been drinking with the rest of them and had been, to his surprise, blatantly flirting with several of these young black men they had been drinking hard liquor. She had sat down and easily drifted off to sleep on the sofa with a lit smoke burning in the ashtray. All of the other neighbors had left except for three black guys. They lived in one of the apartment complexes next to hers. They had all been watching and talking about the game on television. His mother was wearing a very short skirt with a loose-fitting blouse with only a few buttons on the front.

While asleep, she had moved around in such a way that her skirt had ridden up to a point where one could see most of her white panties. Along with this, the outline of her slit and cunt lips was moist from her earlier interest. It was easily visible through the thin fabric.

Halfway through a bottle of Jack Daniels, Taylor, and Oliver were sitting directly across from her, unable to take their eyes off of this now very exposed area of his attractive older mother's panties. The conversation about the game suddenly changed to about things other than sports. Taylor, who had been eying her panties, had casually asked my friend if his mother liked sex.

They had all been drinking, and he said without thinking as the visions of the video flashed into his head, said he didn't know as his father had died when he was a young boy and that he had lived with his aunt, but added that she had been single for some time and innocently blurted out after seeing his mother the night before that she was probably ready for some hot sex!

Not that my friend was checking these guys out, but it was hard for him not to notice the bulges that seemed to be getting bigger in their pants. Anna had just started to wake up and was sitting in the middle of the sofa. She did not pull down her short skirt even when Rob and Terrell got up and sat on the sofa beside her. Anna was now between them. They started talking to her and were teasing and flirting. Being that she was still feeling pretty good from the liquor, she was flirting right back!

Finally, it happened. Oliver placed his hand on her thigh and squeezed it several times as he moved it closer and closer to the intersection of her legs.

Taylor looked over at him. I guess he was waiting for my friend's reaction and approval. He hesitantly, not sure why, nodded and said, "Okay." Oliver and Taylor were pretty good-sized men, along with the third black guy, Lee. They all stood well over 6 feet. They had muscular builds that were quite athletic.

By now, the sight and thought of what was happening to his mother, Anna, right before his eyes was shamelessly arousing him. Before he knew it, Oliver and Anna were kissing. He was running his hand up under her panties and was rubbing her now very wet clit. Anna was moaning as Taylor joined in. He began by quickly popping the few buttons on her blouse. He had, in a matter of moments, easily removed it, leaving her topless. She again made no effort to stop him. His black hands were in stark contrast to her pale olive skin breasts.

My friend watched these two black men and his 50-year-old mother on the sofa as she passionately kissed Oliver. Taylor was going from one big soft breast to the other; his lips were on one of her mushroom-shaped nipples, and his fingers were pinching and twisting the other. She would "gasp" and stop breathing momentarily each time he twisted them.

Taylor had gotten up and moved the small coffee table to one side. Oliver had easily picked her up off the sofa, and Taylor unbuttoned and slipped off her skirt and then her wet white panties, leaving her nude. With Oliver easily holding her in the air, Lee joined in, holding one of her legs wide apart,

and Taylor on his knees, easily holding her other leg apart. French kissed her right on her pussy.

His mother, Anna, had told him later she almost had an orgasm and a heart attack all at the same time. Oliver then laid her on the floor. Taylor had removed his clothes and was kneeling at her head. His big black cock was standing straight up and out as he milked it. His eyes were lustfully devouring her naked, petite, olive-skinned body.

Oliver had removed his clothes and climbed in between her legs, easily spreading them apart. His mother had a very unusual muff. It was a thick dark brown, almost black bush, but what was most unusual was her cunt lips and clit. They were too fully developed and had seen a lot of use.

Even partially aroused, they now were sticking out of her dark pubic hair quite pronounced and in real contrast to her pubic hair. He had grabbed her bottom and, at the same time, was driving his tongue into her well-developed and sloppy wet pussy and then nibbling her clitoris!.

Taylor took advantage of Anna's moaning, with her mouth open and her head turned to one side. Her lips were right in front of his cock as he pushed as much of its large head into her mouth as he could. She was almost gagging as it stretched her lips, which were normally quite petite.

Anna was doing her best sucking on him while Oliver was taking a big mouth full of her clit and pussy lips that had all but disappeared into his mouth and black lips. Anna made the most perverse noise that my friend hoped the neighbors couldn't hear. Taylor kept yelling at her to suck his cock, as he playfully slapped her face, and this lets everyone in the room know how good her little white mouth felt on his big black dick.

My friend was rock hard now from watching these Two black men have their way with his mother, boy it was something right out of a brutal porn movie, but this was no movie.

Oliver finally moved up and was sucking almost all of her big dark olive-skinned nipples into his mouth. His cock was now straight out and very hard. The third black guy Lee had just been watching and had been holding his cock as it got bigger and harder! Taylor pulled his cock from her mouth as Oliver laid down on top of her. Anna looked so tiny and helpless under his massive body. She cried out several times, with a mock please ...stop!!!...but her cry was not! Convincing at all!

My friend watched what was happening between Oliver's legs and saw the head of his big cock push into her mature wetness. He then forced more of it and watched it slide into her. His mother's small olive-skinned hands were first forcefully clutching his black buttocks and were then trying to push him away. This did not affect him whatsoever. She cried out again for him to stop, as her face contorted in pain, but she could not stop herself from pushing her hips up to meet each of his forceful thrusts.

He was able to get almost three-quarters of his massive cock into her before he filled her pussy up. He then started ramming into her. With each thrust, it looked like more and more of his cock entered her. Within several minutes of starting, he had managed to work the entire size of his massive 10" cock into her. She was withering underneath him and moaning like a wounded animal.

Both Taylor and Lee egged Oliver on!!!..., Telling him to fuck the old bitches pussy, and fuck it hard. Oliver needed no encouragement as he was doing just that. On his every thrust, he was driving the entire length of his big black cock into her little body "again and again" his big black balls were slapping against the lower part of her olive-skinned ass cheeks and was making a delayed, a very light wet whopping sound in unison with his thrusts.

His mother, Anna, with tears running down her cheeks, kept crying out because he was just too big

and that he was hurting her. But this didn't stop her at all from pushing back against him just as hard as she could as she tried to grab his ass as he continued to fuck her long and hard. He finally pulled out of her, and he could see his mother's pussy stretched to a wide gaping hole as lots of cum was running out and down the crack of her ass onto the floor.

Taylor took Oliver's place, not that Oliver didn't have a monster cock, but Taylor's looked even bigger. The head looked like a big, odd-shaped, and very swollen hardball. It was easily several inches longer than Oliver's.

Taylor moved on top of her and pushed the head of his cock into her wide-open pussy. She moaned as he slowly pushed this monster cock into her until he, too, was buried inside her. Oliver looked over at me with a smile on his face. He was stroking his cock, using her juices to slide his hand up and down his long black shaft.

He watched Terrell ram, jam, and pump into her. As if Oliver's big hard cock hadn't stretched his mother's pussy enough, She was now being stretched even wider yet, by Taylor's much larger cock! He now started fucking her even harder and faster than Oliver had.

Taylor's mouth closed over Anna's lips kissing her as she tried to cry. Taylor kept driving the entire length of his massive cock into her little body over and over again. Her ass cheeks spread and flattened out and jiggled with each thrust as he pounded her, as did her big breasts. Taylor broke their kiss and pulled back so that Oliver could force his cock into her mouth.

She was trying to suck his cock, but from the hard pounding she was getting from Taylor's cock. The muffled and painful sobbing cries she was trying to make were unable to stop or slow down either of these big black men. Oliver was having a hard time trying to keep his cock in her mouth. Lee was kneeling on the other side with his big black cock at the ready, watching and waiting his turn to be next!

Taylor finally moaned out that he was cumming. As he trusted into her, stiffing up, my friend could see his balls tighten, and I knew he, too, was now unloading his black cum inside her. He drove into her again and again as if trying to get the last little bit of his cock into her as he emptied his ball sack into her very well-stretched and used olive-skinned pussy. He then rolled off of her and was leaning up against the sofa.

Oliver, with his dick hard, just could not help himself pull out and again climbed on top of her and drove it into her with one long hard thrust that caused Anna to scream out. He pumped into her hard and fast until he again had emptied his load into her well-used pussy.

Once Oliver was out, Lee had, before she even realized it replaced Oliver's cock in her mouth with his. Anna was no longer trying to resist and was now shamelessly trying to suck as much of his black manliness down her throat as was humanly possible, just like a common slutty street whore!

Oliver just kept his big black cock buried in her for several minutes as his breathing returned to normal, and Lee enjoyed deep-throat fucking her. When Oliver finally got up, I could see her big olive-skinned breasts still heaving up and down. Her breathing had not slowed down at all. With Lee still pumping in her throat, he pulled up just enough to spray his load all over Anna's face!

With most of his cum all over her face and breasts and still, with a very hard cock he had moved down to get sloppy thirds, only his black cock was even larger yet! His was a monster and was getting bigger as it swelled almost 12" long and over 2.5" in diameter. Even with her pussy sloppy wet and well used, she gasped again as he easily rammed it in!

This was followed by deeper and longer strokes of faster and faster hard fucking. Until he was spent and finally pulled it out with a resounding wet plunk! OMG, my friend had never seen a woman's pussy this wide open and gaping, and certainly not his mother's. All three Oliver Taylor and Lee's cum, along with Anna's, was running out from inside her. Her light-colored olive skin pussy mound and lips were almost blood red, bruised, and incredibly swollen.

Anna gasped for breath as Oliver, Lee, and Taylor gazed upon their handy work.

My friend was embarrassed by all that had happened but was also turned on and rock-hard from what he had just witnessed done to his mother.

All three black men knelt, wiped the cum from her lips, and gently kissed her, saying to her that this was one of the best fucks from a white woman that any of them ever had!!... They dressed and appreciatively thanked my friend, promising him they would be more than happy to come over to watch out for and care for his mother while he was away in the Army!

After they left, he helped his mother up and into her bedroom. She could hardly stand, and enormous amounts of cum were running down her naked legs. He lit her a cigarette as he helped lay her on the bed.

His mother said, "I guess it might be the right time to tell you about the farm," as she puffed away on her smoke.

After his dad died, his mother tried to run the place herself but was never as good at it as her husband. He had asked his mother why it had been so hard for her to run this donkey stud farm, as he had thought it was a thriving business.

His mother told him, "Son, you just don't understand," and explained, "It was not the kind of stud farm you think it was. We raised donkeys. Male donkeys to service human women! Mostly for underground live sex shows. Many in this country were sold to rich foreigners and other showmen. Especially in South America, the sport and art of bellyriding by many women is quite popular there. However, not with donkeys, as that was not legal or recognized. Most law enforcement and government officials in South America gave it a wink and looked the other way."

She also went on to say that some were even bought by women here in the States who loved to have sex with animals and that donkeys were preferred over other four-legged creatures as they made a fine pet and were quite docile. When not being used to abuse and pleasure, women who were easily trained had great stamina, and many of them seemed to like having sexual intercourse with humans, especially young women.

His mother then got into the real details and told him that the few people who had worked for his father had left over the years, and it got harder to run the business alone. She had hired two young black boys about 18 years old, as no one else seemed to want the job. They, over a long period, became quite mean and demanding.

After a while, they were practically running the place and ran it into the ground. They knew little about the business and were only interested in the money. They enjoyed using the other young women to train and service the donkeys.

She was scared of them as they were big, strong boys, and it wasn't soon after this that they started ordering her around, and when they figured out that she would do whatever they told her. They first had her start wearing fewer and fewer clothes and then only her panties and bra!

After that it wasn't long until she was wearing nothing and was treated by them just like one of the animals. Many times she would be kept naked and on a leash, and as such, she was made to service these virile and very horny young black studs. She did not mind doing so as she had been without sex for some time, and they were, for inexperienced young men, very good at fucking her.

But when they started talking about using her to help train the donkeys, she didn't want to. These two young black guys had run the girls off the ones previously hired to do the job and train the donkeys. And without a steady source of willing women, they could not continue training the donkeys.

The first donkey they mated his mother, Anna, with was not as terrifying as she thought it would be, and after the initial shock liked having his big donkey dick hammer her. Still, they planned to step up the business and use her hard daily. She knew that this would not last long and that she would be unable to keep up and would be a ruined and well-used piece of gaping cunt meat in short order. This was when she decided to leave and move to the city.

*The End*
