BEASTIALITY STORIES

Ever since I can remember, I've lived on a farm with our horses. Horses have always been the best friends in my life because I don't usually get to go out much because of all the farm work.

Today, I'm going to tell you about an incredible experience I had with one of our best horses...and my best friend at that...Swift.

We called him Swift because he was very fast and he looked amazing when he galloped in the wind with his mane flying everywhere...he's gorgeous, has a brown fur, and has huge blue eyes.

I was alone in the barn and had finished cleaning out all the stalls except for Swift's. I wanted our moment together to be just right.

I took off all my clothes, folded them neatly and put them in the tack room.

My body shook as I approached the horse's stall but I managed to open the door and shut it behind me.

As Swift had never seen me naked before, this was a little bit of a shock to him and he came over to me immediately sniffing me with his soft nose. That tickled, I thought to myself.

He sniffed me all over and then he let out a lick to my face with his big, soft tongue. Ooh, did that feel good. I sat down and spread my legs. He continued licking me with his warm big tongue and going up and down my belly cleaning me up. I was in heaven, being naked with a horse and in addition to that, he was giving me a tongue bath! Things went up a notch though when Swift came to my penis and balls and gave them a lick.

I went into an erection and almost cummed right there. But I held back and enjoyed the moment for as long as possible. The horse continued his swift motions of licking up and down my shaft and balls coating me with his saliva until I couldn't take it anymore and cummed! Some got all me and Swift's face.

This seemed to give Swift some sort of message because the next thing he did was well...let me put this way, it was hot all of a sudden. Laying down enjoying the feeling of being spent I didn't realize what was happening until I felt this tinkle on my forehead. I looked up and all of a sudden a shower of horse piss flowed from Swift's penis right all over my body and into my mouth!

Not wanting to scare the poor horse, I let him have his way and opened my mouth letting the piss pour in. The taste wasn't as horrible as I thought it was so I swallowed as much as I could get in. As the piss continued to flow, I found myself aroused by the smell of the piss itself and then let it flow all over my body getting me all wet. The horse then stopped suddenly making me sigh.

I got an idea just then and licked his giant penis up and down his shaft like a dog. I then proceeded to rubbing his balls to please him which he gave a whinny at. I continued my tongue massage on his shaft when I reached up and felt under his tail. He seemed to like that so I got out from underneath him and went behind his ass.

I then proceeded to lift up his tail and gazed at his gorgeous ass hole. It was black and almost clean as a whistle. Not wanting to make this horse wait, I massaged his enormous ass cheeks and then kissing the ass hole on this horse. The horse backed up into me wanting more, so I did so continuing to kiss and lick his asshole reaching in my tongue as far as possible and tasting his shit which was amazingly not that bad either. With that, the horse let out a fart and I sniffed it in sighing with content. I couldn't hold in any longer...I had to do it with this horse!

Seemingly sensing my desire, Swift lay on the ground for me so I could mate with him. Taking this opportunity, I lifted the tail and poked my penis at his hole pumping in and out slowly until he let me penis all the way in.

With that, I humped and humped into the horse's shit filled ass until I came too and spewed my seed into him. I sighed and took my horse shit covered penis out of his ass.

I fell backward, sighing with content. I looked up and saw Swift's penis erect again. Looks like I not done just yet!

It was a sunny day and a Saturday so I got to be alone with Swift again.

I went into the barn and opened his stall door to find him waiting for me.. his slave.

Like any good slave would do, I took my clothes off and knelt before him offering myself to him. As if he had grown ten times smarter, he suddenly put his hoof to my mouth knocking me backwards. He forced me to lick the bottom of it clean which I started doing. Uhh, I said, looks like he stepped in shit last night. I licked around the edges making sure to get all the shit and dirt out of his hoof as possible. When I was done, he locked lips with me and I sighed in content as we engaged in a long passionate kiss.

His big equine lips easily covered my own smaller one and he began licking my face with his huge saliva dripping tongue coating my lips and face really good. He licked my face as I felt the warm spongy thing slop across my face.

He stopped suddenly and I saw that his penis was erect. I got up and started to go over to his side but I slipped on some of his horse dung and hit my head. Doozy, I saw him put the meancing now fully erect jet black penis at the hole of my mouth. Wanting to sexually arouse himself, he let loose the golden flow of piss straight into my mouth which I took the full force of. It went down like a waterfall off a cliff and continued. The piss was good in a erotic yet tasty way. The smell of it was intoxicating and hard to resist though I couldn't fathom why I would ever want too.

Swift then started to force his penis down my throat slowly but surely. He humped in and out, humping and pissing at the same time amazingly. I got all excited and didn't want him to stop at all. Suddenly though, he stopped. I didn't know why, but he took his penis out of my mouth and just stood there as though he was waiting for something.

I got up and his ass was facing me. Then I got an idea of what he wanted. I went over to his ass and lifted the tail to see that butt hole was in need of cleaning. I got to work right away and started licking away at the brown and yellow shit all over his hole. Mmmm, I said to myself, that's good. I licked up and down and into the hole tasting the horse's delightful dung. Swift's ass cheeks wiggled around as I licked in and out of his asshole and served him like a good slave.

Swift's asshole then expanded unexpectedly and his dung came pouring out into my mouth! I didn't try to spit it out though...I let the dung pour into my mouth however but I soon found out it was too much for me and let the rest of it fall onto the hey covered floor.

I chewed the brown pasty stuff and swallowed leaving a brown stain on my tongue. I looked at the inviting asshole and then looked at my unattended penis that was erect. I looked up and Swift wiggled his ass cheeks at me. He then rubbed his butt against my body and I got all aroused even more. I hugged Swift's ass and I got a stool to stand on.

I took my penis and started to hump in and out of Swift's hot and gooey rump enjoying every

moment. I humped into the ass enjoying the feeling of being in this horse. I sighed in content and feel on the rump of this horse laying down to rest. Little did I know what he had in store for me next...

It was Friday night and I was laying in my bed thinking about only one thing... Swift! My horse, my master! Oh, I thought to myself, how I longed to be near that horse and his beautiful ass again...

I looked up at the clock and it said midnight. Oh, why not I said. I'll sleep in with Swift tonight and then shower in the morning! No one was on the farm except me this weekend anyhow.

I got up, put on my jeans and shirt and walked out into the barn. Lucky for me it was warm out tonight.

I rubbed my the base of my pants as I opened the barn door and then shut it again. It wouldn't take me long to find out where Swift was...he was the only horse we had!

Swift neighed and I came running over to where the sound was coming from.

When I saw Swift I immediately grabbed his head and we went into a passionate kiss, with his huge equine lips easily covering my own. He then went on to lick my lips with his delicate yet soft tongue covering my face with horse drool. I sucked it in and swallowed savoring the taste of horse saliva. He licked my face some more making sure my face was totally covered. I enjoyed every moment as his big tongue slopped up and down my face making me moan with pleasure each time. I immediately shed my clothes and jumped into his stall.

Amazed at my quick actions, Swift rewarded me by showing me his ass and lifting his tail gloriously. I stared wide eyed at the treasure before me... Swift's ass. I got up and immediately groveled before it. As his ass towered overed me, I knew what was coming...I lay down on my back with my face right under his butt.

Swift then let out a fresh yellow/brown batch of shit onto my face getting it all over my head and body. I managed to get some chunks into my mouth and started chewing...it was kinda hard to chew but I managed. I rolled the shit with my tongue all over my mouth resulting in horse manure breath which Swift fondly approved of. Speaking of Swift, he immediately turned around and came over to sniff me laying in the sawdust with his shit. He licked all over my face cleaning me up and getting me all slobbered up again.

Just when I prepared for a good face licking again, Swift did the unexpected yet again and went right to my balls...massaging them with his tongue. I moaned out loud in pleasure as he wrapped his salivary tongue around my penis and squeezed it. I just laid there and continued to moan as my master continued his licking of my penis...licking up and down, up and down until he stopped expecting something in return. I was quick to get his piss dripping penis that was suddenly erect when I got a hold of it.

The long and rubbery length pulsated within my grasp as I began lick up and down the organ in my hands. I took one hand and rubbed his balls making him piss all over me! I made sure some of the golden liquid got in my mouth as it squirted all over Swift's stall and onto me. Even though he was pissing everywhere, I continued to lick the penis getting sticky all at the same time. Swift sighed in content and stopped pissing. Swift neighed and I got up. He immediately showed me his ass and shook it in front of my face. This was it I thought...here was the object of my desires...right in front of me!

I immediately came over to his rump and lifted his tail to find a dung covered hole just waiting to be cleaned. I obliged and just kissed it at first. I licked and massaged his butt enjoying every minute of

it. Swift shook his ass cheeks in pleasure at the feel of my tongue and then I went into his hole tongue first. I went in and out cleaning him out of shit and cum...mmmm, very good I thought to myself. Swift farted in my face then, and I inhaled the heavenly scent giving me goosebumps.

Swift then lowered his body so I could get in. I was thinking OH BOY and in I went with my penis. Like usual, I started gradual humping in and out at his hole until it opened and let my penis through. Swift's ass hole then put pressure on my penis making me moan with pleasure feeling his warmth all around me. It was a comfortable feeling having my penis inside this horse... oh, how I wish it could last. I lay on Swift's rump and continued my persistent humping only wanting to pleasure the horse. Swift turned his head around and licked my face reassuring me. Ooh, I was in heaven in all right...I was definitely in heaven! I soon came and cummed right into his ass planting his body with my seed. I moaned and fell onto his back in pleasure. He neighed loudly and I took my penis out of his ass...I looked at it to see it was covered with brown and yellow shit. I didn't mind about though...it was time for Swift's turn.

I lay on my belly and put my rump up in the air waiting for Swift's already erect penis to enter my ass. Swift lived up to his name by immediately putting his piss dripping penis into my ass...hard! I yelled in pain and pleasure at the same time as he humped in and out of my small ass hard. He got a few inches in and pumped and pumped until he climaxed and cummed into me! Flow after flow of cum came into me as I laid there letting him conquer me. Satisfied with himself it seemed, he took his penis out of me and nudged me onto my back.

I put my hand over my head content with tonight's events until Swift decided to lay on me! He carefully towered above me and lay down upon me so that his ass was in front of my head. I felt his entire penis on my chest and his warm underbelly keeping me warm. I didn't mind so I started to drift off to sleep as Swift farted in my face again! Sigh, I said, sleep time. Swift fell asleep on me and I fell asleep to the smell of horse.
