## BEASTIALITY STORIES

© by Corey Anton

My 19yo twin sister came into the family room in a rush, telling me to hurry out to the backyard and see what our dog Sissy was doing, and raced back out the door before I could even get off the sofa. I ran after her, and she breathlessly pointed to our dog Sissy getting fucked by the neighbor's big male Lab/Shepherd.

No doubt, but Duke was pounding his cock in like a rapid-fire piston, and Sissy was down on the ground in front, and her rear was up and taking all he had. My sister was moaning about what a huge cock Duke had, and poor Sissy must have a big pussy to take it down. This was kind of a new sort of conversation with my sister, something about sex, and she seemed transfixed by it all.

We walked over next to them, and they still went about their business. I was growing a boner watching but was surprised to see my sister with her hand in her shorts rubbing her pussy. Duke knotted up [I have since learned the term], and they lay there for a while, white dog cum oozing out of Sissy's cunt.

Lana, my sister, her eyes glazed over like she was in a trance, knelt next to her to comfort her, but before long, had her hand on Duke's cock and was massaging it and working her fingers into Sissy's twat. I was all but shooting a load watching. Soon, the quiet moment was broken by Duke pulling off Sissy and trotting over a few yards to lick his well-used cock.

Lana put her fingers inside Sissy and was finger fucking her. "She still wants more, Bro. She is so fucking hot."

Lana stood and took the two steps to me, reached into my shorts, took out my prick, drooling with pre-cum, and pulled me by it toward the dog.

"Bro, give her a good fuck. I know you want it, and she needs it. Just do it."

With my sister still holding my cock and guiding it to Sissy's pussy, I found myself on my knees, shoving my cock into the dog's cunthole. With all the work that Duke had done to open up that tiny cunt, my cock slid right in.

"Fuck her, fuck her, fuck her, fuck the bitch, baby, and fuck her for me..."

My sister was gasping in my ear, and I began to pound my cock into this docile pet of ours. It was hot and wet and full of dog cum, and I lost myself in the purely physical act of fucking. Who cared that it was a dog? I was fucking a real dog cunt, and my sister was watching, and all turned on by it.

My sister moved to the front of us so that I could see that she had pulled her breasts out of the top she was wearing and had pulled down her shorts to expose her pussy, and was finger fucking herself, moaning as she kept watching me fuck Sissy. I was transfixed on her bare pussy. Either she hadn't grown hair yet, or she was shaving the fuzz off.

I wanted to reach up and lick her cunt, but I was so busy fucking our dog that my cock was talking louder than her puss. Having never fucked anything but my fist before, It didn't take me long to feel the cum building up inside. By this time, I was driving my whole cock down to my balls all the way into this hole, and then I cried out as I shot rope after rope of cum into her.

"Pull out of the fucking dog and let me see your cum," my sister begged and leaned over and grabbed my cock as I shot the last few spurts.

She had squatted down and had my cock right at her pussy, and the cum spurted onto its pink lips, and she fingered it in with one hand while she kept pumping my cum dripping cock with the other. Finally, I lay back exhausted on the grass, and she stayed with me, still pumping away on my still-hard cock. Then I felt her lips and mouth engulf me and moaned and writhed about as she sucked and pumped on me. I was in heaven, or at least I felt like I was in heaven. “

Just what the fuck are you two up to,” my dad’s strong voice bellowed out above me.

I jerked open my eyes to see him standing over us, Lana’s mouth still engulfed with my cock. We mumbled some excuses about finding the dog fucking and ended up with me fucking the dog, too, and well, Lana was just cleaning me up. It was surely the worst few minutes of my life. Lana just kept smiling.

“Daddy, I know how Corey can be punished for fucking poor Sissy. Let Duke fuck him, too.”

I thought, what the hell is she talking about, the dog fucking me? My dad smiled and sternly told me to get on my knees and get my head down on the ground and my ass in the air. I did what he said, and then Lana brought out a jar of Vaseline from somewhere and began to grease up my ass. I screamed as she shoved several fingers in my ass and began to finger fuck my hole, swirling her fingers around, loosening my tight ass muscles. By the time Dad had Duke back behind me, Lana had four fingers in me and was stroking my cock with the other hand. ‘Holy fucking shit,’ I thought. ‘Is this real?’

The next thing I remember was this heavy dog mounting me and his cock ramming into my ass. He was in and fucking me in an instant. I was crying out and whimpering as each thrust went to the very depth of my belly.

“What a pretty boy, our dog-cunt, our slutty dog-bitch, fucking faggot, dog-pound cunt,” my dad was muttering as this big animal was raping me.

Lana was laughing, and I saw that she had her digital camera working, getting shots of my rape from every angle.

“You are a dog-fucker, son. A fucking dog pussy,” Dad kept on with his comments.

All that sort of went into another world as I began to hump back against this huge cock that was continually spraying hot cum inside me, and my cock was jerking and spitting as he fucked me. I wanted more of this cock, and I was losing control of my bladder, peeing all over my belly. Suddenly I felt something swelling up inside my ass, and I cried out in pain as it stretched my anus beyond anything I could imagine. As I screamed in pain, Dad noted to Lana that I had just been knotted.

“Good dog-pussy, son. Take his knot because it is filled with hot dog juices just for your little dog hole.”

Then I just lay there with the dog hooked to me, his dog prick buried inside my ass, and my sister and my father watching over us. My sister knelt and massaged Duke’s cock and rubbed more Vaseline around my asshole. Then Duke let go with a gallon of hot cum, shooting so much into me that it was coming out of my ass like piss when he pulled off and walked away.

I lay there feeling like I had been gang fucked by a herd of bulls and then felt my father lifting me back into the doggie fuck position. I looked back, and he was naked and had a fat 10-inch cock in front of him. “Get ready for real man-cock, son,” he smiled at me.

"We can't let such a wonderful, tight pussyboy cummy dog cunt go to waste," he said as he rammed his cock into me.

I cried out as Dad's cock was so much thicker than Duke's. Dad grabbed me by the hips and went into a fuck frenzy, pounding his cock all the way to the balls, up into my belly, and when he was all the way in, he would roll it around, grinding it into me.

"Ah, your ass is so tight, boy. Just like Lana's cunt, just right for a good daddy fucking."

Lana was now in front of me, her shorts all the way off and her pussy right in my face, "Suck my pussy, baby, while daddy fucks you," she grinned. "Welcome to our special fuck club."

She pulled my face right into her snatch, and I could taste the sweetness of her bubbling pussy juice and began sucking out as fast and as hard as I could as she humped into my face. I all but forgot about the pounding fuck I was getting from Dad, and he was pulling me now by my shoulders, and I was losing my sister's pussy as he pulled my whole body up. I arched back as he shot his fire-hot cum into my body.

"Take it, pussy boy, take real man cum down your dirty slutty hole, you fucking dog fucker," he groaned as he spurting in me.

At last, he pulled out and told Lana to get over to him and lick him clean. She was quickly on his cock. Slurping up the last few spurts and licking off his shaft and balls. I rolled over and watched, and the juices ran out of my ass. Lana had now gone beyond cleanup and was doing a serious job of sucking him off, one hand up and down his long shaft and the other holding his fat balls., while her head bobbed up and down as she tried to take more and more of him into her mouth and down her throat. I watched with eyes bugged out as my sister worked over our daddy.

"Lana, stop. I want Corey to suck me off now," Dad said.

I cautiously took her place and slowly worked his cock into my mouth, and began stroking his cock as I sucked. Dad rolled me over and said I needed more cock and had to have a better angle. He was straddling my head, facing my lower body, and with his hands under my neck, arched me into a position where my head hung down.

Then, he began to pump into me. I immediately began to gag as his cock entered my throat, and he stopped and held still, telling me to breathe through my nose. Once I settled down, he made a terribly strong lunge, and his cock slid down until his balls were sitting on my nose.

"Lana, take his mind off his throat." I suddenly felt her lips on my cock, and as I continued to take Dad's cock in and out of my fuck mouth, Lana was sucking me off so hard that my mind couldn't keep track of what was happening where. Then Dad's cock grew thick, and he started to shoot his fire cum down my gullet. He was so deep that it was all going down into my belly until he pulled it up and out, and then the cum blew out my n mouth and nose and was everywhere. I cried out as my cock was having its cum sucked out, and minutes later, we all lay there in a heap, fucked and sucked out.

"Corey, Lana, and I have been doing each other for several years," Dad said. "But I felt it was time to add you to the mix. You are an official member of our fuck club and can have it any way you like, whenever you want. Just let's keep it quiet and in the family. But you are going to be trained for dog fucking for a while, and tomorrow I am going to bring home another dog to work you over.

"You took Duke's cock really well today, but tomorrow's dog will be bigger and is a trained stud. We

are going to mind him for a week, and you will be his bitch, his dog pussy. Lana will help you through the process each day, and when we are done training you, we will be letting other breeders use you to keep their studs' sperm nice and fresh.

"They pay well for this service, and you are lucky to be the kind of boy any dog would love to fuck. I am going to fuck you as often as I can, and you will have your sister to fuck and suck to keep the man side of you alive.

"But, son, from now on, your main role will be that of dog cunt for every stud we have mount you. Now, let's go inside and get cleaned up. Your mother will be home in less than an hour, and we wouldn't want her to see this, would we?"

He smiled and held out his hand to help me up. The fuck juices ran down my legs, and he took me over to the hose and told me to bend over, shoving the hose into my gaping hole, letting it gush out all the messy insides. The cold water felt so good. My sister smiled at me and hugged me as he finished up.

"Let's sleep together tonight. I need to let you in on some family secrets," she said as we walked to the house.
