BEASTIALITY STORIES

Monica Drake loved running through the local park to school. She was hesitant to do it because of the warnings about a pack of dogs running wild in the park, but she doubted anything would happen. She was enjoying a sunny spring day. She was dressed in a pair of running sneakers, white socks, black silk thigh-high stockings, a white sleeveless, collarless T-shirt, black silk shorts (no bra or panties), and a white headband.

She had just reached the center of the park and was standing next to the water fountain when she heard the howling. The howling was close, and she started moving away from it when she heard barking in the direction she was heading. She began to run in another direction when dogs appeared in front of her. She veered away, but more dogs appeared. She realized she was surrounded.

Dogs appeared, and one large black mastiff walked up to her. Looking into its eyes, an intelligence stared back at her. It grabbed the leg of her sports shorts and tugged on it, growling. She realized it wanted her to take them off. Moving slowly and carefully, she slid her shorts down her legs and stepped out of them. Three of the dogs moved up to her. One grabbed her shorts, and the other two each snagged a shoe.

A fourth walked up to her and stood waiting. Finally realizing what it wanted, she removed her shirt and gave it to it. The dog moved off with it, and she stood totally naked. The leader stared at her smoothly shaved vagina and then licked her. She shivered as an electrical shock ran through her as he stimulated her clit. Her legs gave out on her, and she collapsed to the ground. Two dogs moved up to her and began licking her nipples.

The leader moved between her legs and continued lapping at her virginal pussy, driving its tongue deep into her cunt. It did not take long before she experienced her first orgasm. She was allowed to lay there and recover for a bit, but then she was forced to rise to her hands and knees. The first dog mounted entered her anus, and fucked her till both of them came. A third dog lay down under her, and it was able to enter her vagina, popping her cherry.

Another dog replaced the dog fucking her. One of the dogs lay down on its back with its groin under her face. She took its hard cock into her mouth. She had a hard dog cock in her mouth, cunt, and asshole. She started moaning as she came closer and closer to climaxing. It was almost like it was planned, as all four climaxed at the same time. Dog sperm filled her mouth, womb, and anus. She thought it was over, but more dogs from the pack replaced those using her.

It was hours before the pack was finished with her. She lay there exhausted, her body filled with dog cum. She lay there, tired but satisfied, when an intelligence touched her mind.

‘Good fuck, bitch. You are ours now. Be here at the same time and day next week. Be ready to be our fuck toy,’ it said.

The pack moved off into the park’s woods. She regained the strength to rise and found her clothes had been left next to her head. She rose, dressed, and headed home.

At her apartment, she discovered a strange mark between her legs next to her slit as she showered, cleaning her body. As she finally collapsed in her bed, she thought that the park was properly named the fairy forest park. She fell asleep with one final thought: “Do I really have to wait seven days for it to happen again?” I think I will go for a run tomorrow night, as she drifted into a satisfied sleep.

The next night, she entered the park and began running along the path. As she neared the center of the park, the fountain came into sight. The area became dark, and a voice spoke to her mind. Too bad for you, little mortal. Tonight is our turn. Fear entered her as a force pushed her to the ground and stripped her. She lay on her back, and her legs were far separated.

She looked around when she heard hissing. She quivered in fear as snakes poured out of the woods. She felt snakes bite down on both of her nipples and begin sucking. She was shocked when milk dribbled down her breasts from the mouths of the snakes.

Then she felt a snake push into her anus, and another parted the lips of her pussy, sliding through them into her womb. Others followed, and the sensation of their scales moving across her clit brought her to orgasm. These Fae beings continued using her in this way until long after she passed out. Dawn woke her, and she dressed, returning to her apartment to clean up once again.

She lay down on the bed and fell asleep. Waking up hours later, she discovered her abdomen was swollen. It continued to increase in size, and then the pain hit her. Three hours went by, and she gave birth to two small forms. They were humanoid-looking canines. After six hours, they became a pair of regular-looking black dogs. Months passed, and the puppies aged as fast as normal dogs.

Reaching maturity, the dogs would have intercourse regularly with their mother. After a year of this, Monica became pregnant again, but this time, she had a plan. She went away for six months, and when she returned, she had a pair of twins, a male and a female. Her children aged normally, but apparently, her aging had drastically slowed. As her children reached their late teens, on their eighteenth birthday, they became sexually active fucking her and each other daily.
