BEASTIALITY STORIES

Enjoying the tranquility of the summer's early morning breeze, Nancy Kent, yet to be fully awake, pulled the sheet away, revealing her massive 44D-size tits, soft a hint of golden pubic hair, and long legs, wondering how she would get through the sticky day.

Half asleep, dreaming, she let her hands feel her flat tummy, slowly inching towards her cunt, eager to feel it and unconsciously spreading her legs wide apart, thrusting her cunt towards her eager fingers. A smile played on her luscious lips as she was getting turned on, slowly drifting back to sleep.

Suddenly remembering the dream, her body became stiff with fear. Covering her face with her hands, she started crying and trying to get a grip on her emotions. Assuring herself that it was all over and that she would not let others use her, as if on someone's command and unable to escape her fate, she relived all the events of her first summer vacation last year.

Nancy lost her mother at an incredibly young age. She left her father, Walter Kent, younger brother, Ray, and younger sister, Sue, to pursue her studies, finally landing a job as a history teacher in a private school in Florida. Her dedication made her an extremely popular teacher, but nothing worthwhile happened in her personal life.

Everybody assumed she was frigid and called her a loaner. After almost 10 years away from her family, Nancy, now 26, took her first vacation for a couple of months to spend with her family. So that you know - everything was arranged in advance. The Kents will spend their vacation on their yacht, 'Maria,' cruising along the Mexican coast.

It was a great reunion of the Kents at their family's ranch, a surprise addition being Uncle Jessup, younger brother of Walter. Her father, 44 years old, had seemed to turn younger and sexier and took the duty of rearing two kids very well in his stride. Her Uncle Jessup, aged 38, a younger version of her father, was very handsome. Ray, 22 years has become a very handsome sexy young man, and the surprise package has been her sister Sue turning 18 and with a lusty body.

Nancy also met the final member of her family, Frankie, the 4-year-old huge scary German shepherd to guard their ranch. Nancy, after a very long time, felt very horny and turned on by her own family, deciding to masturbate in the night, which she was addicted to.

Nancy tossed from side to side as she couldn't sleep in a new place. Half asleep and thirsty, she left her room and proceeded towards the kitchen on the ground floor. While passing her sister Sue's room, she heard the dog Frankie's low moan. Ignoring this as her imagination, Nancy had a glass of water. On passing Sue's room again, she heard the same sounds, but her curiosity improved as she was fully awake.

She tried to open the door slowly, but before opening it, what she saw from the keyhole took her senses. She felt glued to the keyhole. Inside, Sue was naked and sharing her bed was Frankie. Sue had spread her legs wide, and Frankie was slurping his long tung into her completely shaved cunt, standing on Sue, his thick, long, and narrowing cock almost buried in Sue's mouth. Nancy is shocked and mesmerized by the show put up by Sue, who acted like a pro in sucking.

Inside, Sue was overly excited. Being alone on the ranch, she got many opportunities to master her sex skills on various animals and the men available both in the family and on the ranch. She forgot about her new sibling as Nancy moved out when Sue was still young. Sue was just getting into the act and slowly arousing both of them. Frankie, well-trained by Sue, knew that it was just the beginning and that his master would guide him to his total sexual release. Sue slowly pushed the

cock out of its sheath and sucked it into a hard cock almost 8 inches long and a full 2-inch around.

Being the expert, Sue was stroking the cock into a full size and was able to gulp the cock down her throat without any trouble. Down in her cunt the dog's tung felt like a huge cock pushing Sue into a frenzy. With one hand, she spread her cunt wider to let the dog suck as much cunt as possible, and with the other hand, she stroked the cock. As Sue reached her high, the sucking of the dog outside the door, Nancy's state was no different. She was fully aroused and was having difficulty controlling her emotions and also afraid to go in as Sue may stop the sex with her dog.

Before Nancy could enter the room, Sue knelt, signaling to Frankie that his boss was ready for the final prize. In a second, Frankie turned and jumped on the kneeling Sue, all ready to fuck her cunt. Nancy, about to enter the room, opened the door but stopped in her tracks as Sue was guiding the dog's thick and fully grown cock into her cunt. Frankie, as the tip of his cock entered, Sue's cunt pushed with such a force that the entire cock vanished from sight, stretching her young cunt to its limits.

This unexpected brutal entry forced Sue to gasp for air as her cunt was filled with dog cock and pushing the dog to fuck her harder and deeper. Nancy, shocked by the dog fucking let the door slip and close with a big thud. Suddenly Sue and Frankie were both aware of Nancy's presence, and Frankie took his cock out of Sue's cunt. Sue, on her part, was caught red-handed by her sister and was in shock.

Nancy closed the door shut and sat on the bed beside Sue, to Nancy Sue looked very sexy, and being almost a stranger to Sue, Nancy was horny with put thinking she slowly removed her night pajamas and joined the naked Sue and started caressing Sue's tits, Nancy confessed that she was never turned on like this in her life so far and if it is OK with Sue she would like to join both Sue and Frankie and Sue should act as teacher in her sex life to train her and make her enjoy sex with them. Sue was pleasantly surprised by this request of Nancy, all the while that Nancy would condemn her for her perversions.

Meanwhile, Frankie returned to the bed, laid down beside Sue, and sniffed Nancy all over. Sue told Nancy that she had been fucking the dog for the past 3 years and also fucks the pony in the shed occasionally. Nancy felt the young cunt of her sister and spread her cunt lips wide and kissed the insides, and with her hands, she cupped Sue's tits capped by mounds of aureoles so large and pink with pimples that they were almost additional breasts.

The more Nancy kneaded them, the more taunt they became, Nancy sucking her younger sister's cunt, forcing Sue to lift and spread her cunt much wider, even though Sue had been fucked by her brother Ray, father Walter, and Uncle Jessup many time before, this is the first time that another woman that too her sister is sucking her cunt, drawing juices from deep inside of her cunt opening a new front to already fully awakened young sex life.

Nancy, on her part, was sucking like an expert cunt sucker, while sucking she had inserted her finger into the cunt and moistened and without warning, she pushed the finger deep into the ass hole of Sue, who shrieked in shock as she was a virgin in her asshole.

Her asshole was very tight and offered stiff resistance to the invading finger. Now Nancy had inserted the second finger in her ass and then started sawing the young sister's ass and stretching her asshole slowly. Sue, caught by surprise, slowly started enjoying the twin pleasures of cunt sucking and fingering in her ass. Frankie somehow found the cunt of Nancy and started to lick his way from her cunt to her asshole.

Feeling left out, he looked to get a grip of cunt and enter Nancy, but Nancy had other plans for her young slut Sue. She asked Sue to get up and bend like a bitch so that Frankie could fuck her. Sue, already to come by the attention she had from her sister, readily agreed and got on all fours expecting the dog to fuck her cunt. Frankie then got the back on Sue, ready to enter her cunt, when Nancy holding the cock firmly, pushed the cock against the thick and tight ring of the ass of Sue, unprepared for an ass fucking.

Sue hesitated to go any further, and Nancy, fully aroused by all the sexy action, slapped Sue across her milk-white ass cheeks very hard and instantly turned her into a crimson. Then, without stopping, she spanked both ass cheeks one after another. Initially shocked, Sue, unable to bear the pain, started to cry, and even then, Nancy went on her slapping. By now, both ass cheeks were red, and welts started to appear, and Sue was openly crying and begging Nancy to stop this brutal ass raid.

Nancy retorted that from now on, Sue should be her slave and do exactly as she commands and obey her always without any resistance, and if not, this ass raid would come to haunt her and that this issue should be kept a secret between the sisters. Having no other option, Sue readily agreed to all that Nancy had said, half expecting relief. But Nancy had other plans. She reduced the intensity of the spanking but continued to spank. By now, the pain had reduced, and in its place, she found pleasure and started to moan slowly.

Sensing that Sue enjoyed the spanking, Nancy encouraged Frankie to mount Sue. Sue, too wanted to end this sex session with a good fucking in the cunt from Frankie, But Nancy guided the dog's cock, which was fully aroused, into the ass of the suspecting Sue. The cock pierced Sue's virgin ass hole like a hot knife in butter, ripping Sue's ass and embedding deep in her asshole. Sue was helpless and was afraid that if she resisted, Nancy would spank her to death.

Here Frankie was fucking her asshole like there is no tomorrow. After a few minutes of this brutal ass fucking Sue could relax, and her asshole, and by now, this ass fucking is turning into a great show. By now, Frankie was ready to cum, and his knot had almost entered the young virgin asshole and shot a full load of hot doggy cum deep into Sue's ass hole.

Sue felt the hot cum and felt her organism, and with a shriek, she squirted her love juices all over the bed. Nancy was in a position to suck her young sister's cunt juices as Sue came for a long time, Nancy sucking every drop of the nectar. Finally, Nancy, on her part, found a very obedient and sexy slut and slave in her younger sister, a fucking machine in Frankie, and a whole lot of possibilities with still Walter, Ray, Jessup, and dear pony and horses to play with.

With a smile, Nancy started telling Sue her grand plans for the entire vacation and the future, but first, she should see what she could do with Frankie, Sue, and maybe Ray.

The End
