BEASTIALITY STORIES

© by Daveyson

This all started when I was 18 years old.

We had Max, a black lab about 5 years old. He was a great dog and always very friendly.

My mom is 5' 7"/about 140 lbs/with short black hair and big brown eyes/with a model-type face with big eyes, nose, mouth, lips, etc. Do you know the type?

She is 38d-26-38, with extremely long, thick nipples! Pink nipps that were almost impossible to hide, even with a bra.

My mother had been divorced for some years, going through many boyfriends.

We lived in a two-bedroom apartment in a huge complex. Although we each had our bathrooms, our bedrooms shared a thin wall!

I would hear her getting fucked by her boyfriend, So I could tell which ones were good and which ones weren't so good.

She was always quite vocal, so it was easy to hear and know her excitement level.

The last boyfriend made her loud, and I could tell she was having the best orgasms ever!

Well, her boyfriend got a new job that involved a lot of traveling; I could tell when he would be gone for 2-3 weeks at a time, my mom would get VERY horny!

One weekend morning, I got up to find her dressed in a blue, very thin cloth robe.

I then noticed that this robe was buttoned from the floor to her neck, but she had it unbuttoned from her neck down to just the top of her breasts and unbuttoned from the floor to just below her pussy!

I was pretty shocked by this cause I could tell she wasn't wearing a bra! Her nipples were very, very visible to me, and then when I saw her bending over, I realized she did not have any panties on either!

This made my dick extremely hard right away, and she did glance at it a time or two.

I jacked off like 3 times that night thinking about her!

The next day, we were shopping for food and stopped at 7-11. I asked just on a whim if I could buy a penthouse magazine. My mom smiled at me and said, "Sure, go ahead."

From then on, I was a porn addict. I LOVE PORN!

Anyway, this went on for about 2 weeks; there was more of seeing her in the robe; she was showing more and more cleavage to me, sitting down with her legs apart so if I looked, I could see her cunt hair, etc.

Then I started letting her catch me with a hard-on; that first time was something; she walked into my room one sit. Morning and froze in her tracks, seeing me standing there facing her with this HUGE teenage cock!

At the time, I was about 8" in length. She had a really hard time taking her eyes off it.

I said, "Yes, Mom, what do u want" " All she did was just stand there with her mouth slightly open, eyes big, and staring at my raging hard-on!

I had been thinking of her before, and the site of her staring at my hard cock was almost too much to take; I noticed that my dick was starting to leak pre-cum; you should have seen her eyes when she saw that!

They got huge, and she let out a kind of groan and said under her breath, "Oh god."

So then I got bold and put my hands on my hips and started flexing my dick up and down like waving it at her, then said kinda loud, "Like it Mom"? That snapped her out of it, and she turned and quickly left, her face turning very red and her breathing getting quick.

That's when I got the idea to start leaving her some sperm loads to find, hehe.

That night, she went out with her gf and had some drinks; I went into her bedroom and jacked off 4 times onto her pillow. It was completely covered. There must have been like 20 squirts of sperm on it. I had just finished the last load when she walked in the door.

We said our hellos, and she went to shower; I spied on her in the shower, and I saw her playing her her tits, nipples, and pussy while there. I don't think she came, but it was a good show anyway!

When she came out into the living room, I had a raging hard-on again and made sure it was noticeable!

She was dressed in her blue robe, and only a few buttons in the middle were buttoned. She glanced at my crotch, seeing my hard-on right away; I was staring right at her tits and pussy area intensely without trying to hide the fact at all. When I looked back at her, she realized I saw her staring at my cock, and her face got red, and I could see her breathing was quick also.

Her big nipples were pushing out the material from her robe like crazy; you could have seen them a block away!

I got up and said I was tired and went to bed; she went into her room shortly after, So I put my ear to the wall and listened intently, hoping to hear her fuck herself.

Then, all of a sudden, I heard her say rather loudly, "OH MY GOD."

At first, I didn't know what to make of this since she had just gotten into bed; then I realized what it was about: she had put her head right into my HUGE puddle of sperm on her pillow!

I thought she would come flying into my room pissed off, But then I heard moaning, so I got up and snuck into her bedroom. Now, her room entry was a hallway with double mirror doors, so you could look into the last one and see right into her bedroom around the corner without being seen by her.

When I first saw her, I thought I would squirt right then!

She was in her robe, but it was all unbuttoned; I could see her big tits hanging down as she was on all fours. Her head was right above the pillow I jacked off on that night.

Then I saw her open her mouth wide, stick her tongue out, and take a HUGE swipe of the sperm on the pillow with her tongue and face!

She let out this major moan and started smacking her lips loudly, then again burying her mouth and

face into the sperm-soaked pillow!

Over and over till she had gotten it all, I couldn't take it anymore and walked over to the first mirror as you entered the hallway and let another load loose all over it!

Then went back to my room and crashed to sleep.

The next morning, she said NOTHING about what had happened.

I walked into her room and looked in the mirror when she was in the shower. It was all clean, but I could tell it had been licked clean that morning cause saliva was still on the glass! But all the sperm was gone!

So the next week went by with even more teasing and intense staring by both of us. I felt she was bending over on purpose now, showing a lot of cleavage. I would drop my fork at the table to get a glimpse of her cunt with that robe on; a few times, her legs were spread far enough I got a glimpse of her cunt lips and clit; I could see those times she was wet, her nipples were always sticking out so far also.

Our dog Max even started to take notice by sticking his nose into her crotch a few times. You should have seen her jump and squeal; I know he got a few licks in also; that time, I thought she was going to faint from the feeling, and seeing her teenage son witness this, Her knees buckled, and she almost fell over!

I knew at that point she was over the edge of being horny.

I felt that it was going to boil over very soon. Then, her boyfriend called on Friday and said it would be another two weeks before he returned.

I knew something would happen very soon!

The End
