## BEASTIALITY STORIES

I've known Sally for about a month now and she is a very interesting lady for sure. She had only recently taken up a job in the city where I live. We met up at a coffee shop and hit it off straight away, it was only our second date together when lust took over and we had sex, however this story isn't about that.

Sally is 19, I'm 21, so we fucked a lot.

We were talking about sex and she asked if I had any kinky desires, I told her that I had never fucked a woman up her arse but had a desire to do that. She told me she would like to try that out herself but not at that moment but would do at a later time. She then asked if I had ever watched any zoophilia videos as she really liked them. I hadn't and told her so. Sally told me that she was brought up on a farm and saw animals mating all the time and had a few experiences with a couple of them. She then put on her computer and pulled up a zoophilia site to show me.

I have to admit I found them to be so hot to watch, especially the ones where dogs fuck the girls. Sally said she had done that on the farm with the house dog, she told me how it all started and to her it was a normal part of her sex life. She asked how I felt about that to which I told her I would love to see her getting ridden by a dog. I was imagining her on her knees with a dog pounding her pussy, this I had to see.

Sally then told me she had to look after the farm for a couple of weeks and if I wanted to stay there too. I couldn't let this opportunity go by, so it was arranged that we go there in a couple of weeks time. I was curious about this new found interest and pressed her for more info on what she had done. We talked about it a lot over the next two weeks. Sally wanted me to try a few things out. I told I was keen as. We always fucked a lot after these talk sessions as I used to get so horny listening to her and she noticed that. I was imagining I was the dog fucking her lol.

We arrived at the farm late Friday afternoon to be greeted by her parents and Storm, the family dog, he was a Labrador cross, he was a big dog. Storm rushed over to Sally to greet her, Sally cuddled Storm and gave me a cheeky wink. So this is the lucky dog I thought. The parents showed us around the farm to show us what needed to be done and how much to feed the pigs and cattle. It wasn't a big farm so it all sounded simple to do.

The next morning Sally's parents were gone quite early.

"Have fun." they said as they left.

"We will, Sally replied, and you too."

As we waved goodbye to them on the front porch, Storm was standing behind Sally with his nose sniffing her arse.

"You can't wait to fuck me can you?", as she pushed his head away.

"I can't wait to see him fuck you too." I eagerly replied.

"On one condition, she said, only if you let him fuck you after me."

"You think he will.?"

"I know he will." she giggled.

We went inside to the bedroom as Storm knew that's where all the fucking took place.

Sally placed some towels on the floor and took her panties off. Storm rushed in and tried to lick her pussy as Sally held him back so she could lay on the side of the bed on her back and spread her legs . Storm immediately started licking her with his long red tongue. Sally was moaning as his tongue slid deeper into her pussy lips licking all her juices and some of mine from the night before lol.

"That looks so nice."

"It is. Dogs are so good at this."

After a few minutes of this Sally slid off the bed and got on her knees, Storm wasted no time mounting her, he clasped his front legs around her waist and rammed his large red cock in and started fucking her vigorously.

I was kneeling down watching his cock fucking her pussy like crazy. Sally was moaning loudly now as she could feel his cock getting bigger and knew he was about to blow his juices in her, she reached back and pulled him in closer as his knot slipped in and out of her.

" He's ready to cum, "she blurted out.

"Ohh fuck, I can feel him shooting all his hot spunk in me , so fucking awesome , pity his knot isn't inside me."

By now i hard such a boner on and all I wanted to do was take over when the dog dismounted..

"I'm going to fuck you when he gets off ." I whispered in her ear.

"Let me get cleaned up first before you do."

"No, I replied , I want to fuck you dirty and mixed my spunk with his in you."

"Fine by me." she giggled.

A few moments later Storm dismounted her and gave her another good licking . When he moved away I fed my cock into her battered kitty and started fucking her hard like the dog.

"I'll cum if you keep doing that, you're so deep in me."

Only a few moments later Sally starting moaning like crazy as her body trembled with pleasure as she cum..

I could feel her pussy tightening up on my cock and I just had to unload my spunk in her , it felt so neat to fuck her after the dog. Sally reached back and pulled me in like she did with the dog as my cock pulsated and spat my cum in her dog cum full pussy.

A few moments later i pulled out and told her not to move as I sat watching our juices trickle out of her pussy lips. Storm came over and licked her clean which I felt like I wanted to do. Sally got up and lay on the bed so I sat beside her and told her that was the hottest sex I've ever had.

"I hope you are ready for Storm to fuck you as I want to watch you getting fucked."

"Im a little nervous about it after watching how vigorously he thrust his cock in and out of you."

"You'll be fine, I'll look after you." she giggled.

It was time for me to let this beast of a dog fuck me so I got down on the floor on my hands and knees while Sally got Storm interested in my bum, he started licking my arse and his tongue almost got inside of me, Sally was right, a dogs tongue feels so nice . He kept licking me for a little longer when suddenly he leap on my back pulling me back with his legs around my waist as his hard boney cock looked for a hole to penetrate. It hurt a bit as he slammed his cock into me missing my bum hole, Sally clasp his cock and guided it into my arse.

Storm buried his cock deep in me as I could feel his sheath rub up against my arse cheeks. Sally reached under me and started playing with my hardening cock. I could feel his cock push against my stomach and was glad it wasn't any bigger, felt nice though. It didn't seem long before I could feel my arse getting stretched as Storms cock and knot grew inside me.

"Storm is going to make you his bitch soon as his knot has gone inside you." Sally excitedly informed me.

I was feeling very full inside me as Storm rammed his ever growing hard cock deep as he could in me. With a final thrust he started spurting his hot spunk in me, I could feel his cock pulsating in me as he drained his balls.

"You'll have to stay like this for maybe 20 minutes till his knot goes down."

I said I didn't mind as he kept filling me with his seed.

"Now, can you see why I like it ." Sally queried

"Yes, I hope the dog can last 2weeks of this, I want more."

Sally laughed and said, " That's not all I have planned for you, there's more animals to fuck you and for you to fuck here. The next one we will have is our small boar. It's so different."

"Do you want to fuck my arse when Storm is finished with you.?"

I just let the dog empty himself in me as Sally played with my cock and thought. What a lucky day for me it was meeting Sally, we were going to have 2 weeks of adventurous sex..
