## BEASTIALITY STORIES

I was doing a walking trail near my house. It's 10km winding through the woods. Only a couple of us use it regularly. I've ran into a few neighbors but none as often as young Abby. She's freshly turned 18 and about 5' 8" maybe 110lbs. Adorable dimples and a cute lil bum chin, she is kind of goth/emo with a couple nose piercings and a funky short hair bob (black with chunky blond). Tiny a cup tits but hips and long legs keep your eyes busy. I've drooled a few times staring at her tight round ass when I've seen her out in her yoga pants and short shorts.

Anyway I was strolling through the trail and my earbuds died. As I put them into my pocket I could hear a sloshing sound and a muffled groan. I walked 50 yards off the trail toward the sound. As I got to the top of the hill I could see off in the distance Abby bent over facing away from me.

Her fat lipped bald pussy was being greedily licked by her cock spaniel pup groot. Her pussy looked like a plump dinner roll turned sideways I was so jealous of the dog. It was frantic as if it couldn't get deep enough into her tight body.

She reached back and started rubbing her asshole she turned her head and I was positive she saw me but she didn't stop. After about 5 minutes she fell forward onto the ground. I must have moved because a branch snapped and her dog barked. I dropped to the ground and crawled backwards away from view, ran down the hill and hid behind a massive boulder. She must have been in a hurry to get out of there because they ran away in the opposite direction.

The next day I planned to do another lap or two around the same time hoping I would get another show. As I approached the same area right on the trail I saw Abby sitting on a log with her dog sitting at her feet. She waved at me and said hi as I got close. I stopped to pet her dog and smirked when I saw his face was soaked.

"Has the trail been busy she asked?"

"Not that I've seen" "I did two laps this week and your the first person I've seen, couple deer and a fox"

"Wow I only ever see you" she said

"Sorry to disappoint"

" that's not what I meant"

I was only kidding but tbh it's how I felt she was one of the cutest women I've ever seen in my life. It would have been impossible for my cock to be any harder and I was glad I opted for the heavy cargo pants.

"Wanna walk together?" She asked

"Sure lead the way with your trusty steed"

She giggled and stood up maybe 10" in front of me. I turned and ushered for her to pass. Looking at anything besides her tight tiny ass was impossible. We exchanged small talk as we did the loop and when we got back to the trail entrance she stopped right in front of me. Turned and asked

"Do you wanna go back and watch me cum on my dogs tongue again?"

I was shocked and literally speechless. My face must have given me away because she brushed by me and headed back up the trail. I followed like her eager second dog. At a part of the trail I wasn't familiar with she veered off the trail and went through some trees and brush eventually coming out at a clearing with a couple large boulders and a log making a circle around a fire pit.

"My friends come out here to smoke weed and drink but it's also where I let my dog please me"

She sat on a boulder and her dog went right to his spot in front of her between her legs. He nudged his nose against her mound and she pulled her pants down to her knees. Groot immediately started licking her slit and would occasionally lick her from asshole to clit. Her head swung back and she made no attempt to keep her moans down today.

I walked up beside her grabbed one of her tits, happy to notice she wasn't wearing a bra and they felt incredible for their size. After a few minutes I couldn't help myself I pulled my cock out and she greedily took it deep down her throat. Her groans and moans felt like a new sensation my cock has never experienced.

Her eager young mouth was greedy for my cock and she didn't stop for air. I saw her hips start to shake and she pulled my cock out of her mouth and moaned I'm gonna cum so hard. I heard her squirt hitting the leaves and shrubbery underneath her and when I looked down her dog's tongue was licking her perfect asshole and catching her cum.

I put my cock back in her mouth and within a minute I was dumping what felt like the biggest load I've ever dropped in her mouth. Without hesitation she started gulping and kept up the pace. I had to pull myself away.

Her and I have gone on many a walk and car ride since. I'm older than her dad but she doesn't seem to mind.

A few days after our first experience in the woods I was minding my own business watching tv when I heard a light knock on my door. My dog went ballistic and as I approached I could see her tiny silhouette through the curtain. I opened the door and saw Abby standing there in a short pink sundress with frilly lace ankle socks and low cut dr Martin's. She dyed her hair all black with one white streak in her bangs. Her smile and sexy lips are what I noticed most.

I asked her to come inside and without hesitation she came in and I gave her a 10 second tour. My dog followed behind her trying to nudge his nose up her dress.

When we made it to the living room we sat down on the couch and I asked her what's up.

"I was kind of in the mood to go for a drive and I need a few things from town"

I was surprised she'd come and ask me but I said sure thing would you rather take the truck or car. She said I'd rather the truck just in case we wanna go on some backroads. I opened the door for her and she kissed me on the cheek and hopped in. We headed towards town but she told me to take a side road that I honestly didn't know even existed.

She had sat right next to even tho the truck has a 4.5' wide bench seat. The smell of strawberries and cinnamon were taking over my nose and I asked her is it was perfume or shampoo and she gave me the rundown on body mists and soaps from bath and bodyworks. She could have been telling me about Bigfoot because all I was focusing on was her long fit legs. At one point she said something and I

mumbled and she said "you aren't listening? Are you"

"Sorry Abby I can't lie I wasn't paying attention to anything but your legs!"

She said "I told you to pull over and eat my pussy!"

I slammed on the breaks and we both shot forward in the truck. I didn't even pull over, slammed the truck into park undid my seatbelt and kissed her. I put my left hand under her skirt and I'm not sure which surprised me more the fact she wasn't wearing panties or the fact she wasn't soaking wet.

" my uncle owns property up the road but he's never there"

So we went another km or so and pulled into a driveway that looked like no one had visited in years. I spun her around and lifted her left leg over me and onto the back of the drivers headrest. She laid back and lifted her skirt. I bent down and started kissing her inner thighs.

"Don't tease me! Make me cum"

With that I buried my tongue as deep inside her as I could get. I alternated tongue fucking and licking her perfect clit. I brought my right hand under her butt and starting tease her hole and focused on her clit. She was wiggling toward my finger so I slowly started going deeper and deeper.

After a few mins I flipped my hand over and started rubbing her g spot while sucking her clit. Her moans and hip thrusts were getting more frequent til I knew she was close and I put my left pinky finger against her pink asshole. Her contractions were speeding up and her ass was sucking my pinky into it. By the time it was half way in she raised her hips and started squirting all over my face.

My beard and front of my tshirt was soaked and I refused to stop. She came again a few minutes later and asked me to fuck her. Not yet my dream I want to enjoy this. I asked her to get on her hands and knees so I can lick her from the back like her dog. As soon as she bent over I stuck my tongue all the way into her ass. I ate both her holes for awhile but my cock was tortured enough.

I sat back down and she frantically went for my belt. She grabbed my cock and was about to suck it but I said no just ride it instead. She climber on top of me and rubbed my prick into her clit a few times and without warning dropped balls deep into me.

She groaned and whispered oh fuck.

Slow at first she was taking long smooth bounces and making sure to get every cm of me. She started doing circular grinding motions and I knew I was in trouble. I've never felt a pussy this tight and never had such a sexy woman either. I was shocked I hadn't came yet. When she started speeding up I told her careful your too hot and going to make me cum to quick.

"Not a problem I know I can get you hard again anyway"

I want to say I lasted a long time but it was probably only a few minutes. I grabbed an asscheek with each hand and was fucking her like a sexdoll "fill my pussy up" she moaned and that put me over the top I slammed her down on my cock and shot my load 7" into her young pussy.

I put one of her tits in my mouth and she started pumping her hips. "I'm going to cum on you she said" and the slapping sounds got louder and louder. She collapsed onto me and we embraced while I was still inside her.

"Your still hard?" And to my surprise I was I laid her down on the bench seat and watched my cum oozing out of her fat lips. I rubbed my prick into the cum on her leg and stuffed myself back into her.

The look on her face when I hit the back of her pussy was making me even harder.

I kept going faster and harder til she started pumping her hips and when I slowed down she grabbed my back and said "no fuck me as rough and hard as you can."

Made it my mission to make her cum as hard as possible and when she started screaming omg omg I was a little scared but then she wrapped her long legs around me and I heard her cum dripping onto my seat.

"I fucking needed that" she said haven't had a real cock in 6 months. "Well mine is at your service"

"Maybe next time I'll let you try my ass, if we can make it fit!"

And with that I was hard again but decided to save some fun for next time. We went to town and Flirted some more but both decided it would be best for everyone if we keep it to ourselves. Considering she is younger then my kids and I'm older then her dad. Something about the naughtiness makes it even hotter and I can't wait to see her again even if I can't tell anyone.

It had been a couple weeks since I last saw Abby. I had assumed she got herself a lil bf her age and knew it wasn't going to last long anyway. Seen her at Walmart with her friends and she winked at me and kept walking.

I was working in my garage on an old car when my daughter texted me that there was a lady at our front door looking for me. I opened the garage door and saw a tiny blonde lady, my dog beat me down the driveway to greet her and she was immediately bent down rubbing him as I got to her.

"Hello there maam"

"Don't you dare maam me!" She responded as she stood up. She took two steps toward me and get kind of uncomfortably close. "You think I don't know what you've been doing with my daughter?"

"Ahhhh you are Abby's mom! I thought you looked familiar but you dyed your hair. The blonde suits you, much cuter imo"

"Don't try to flatter me" she growled.

"We need to talk!"

I managed to convince her to come have a drink in my man cave in the garage. I motioned towards the garage and happily got an eyeful watching her walk toward the open garage door.

She was a tiny woman maybe 5' not as skinny as her daughter but definitely still petite and looked fantastic in her tight jeans and nearly transparent white t shirt. I noticed she had on some old converse chuck taylors and had quite the little attitude in her walk.

Once we got in the garage I closed the door and led her to the back room where I have a nice old leather couch tv and a small bar.

"What's your drink of choice?"

"Whatever your having"

I thought about saying I've been having your daughter but thought better of it. Reached into the fridge and grabbed two bottles of beer. I undid the cap and handed her one and told her to please make herself comfortable.

"I'm Annie btw" she said

"Well it's nice to finally meet you Annie I'm dean and I extended me hand she took it and I was kind of shocked at how small her hand was. It was soft as butter and her demeanour seemed to change.

"So how can I help you Annie?"

" well Abby has a new bf her age and I would appreciate it if you left her alone and let her experience young love."

"I have no problem with that, I never had any nefarious intentions about her" " your daughter is a beautiful girl and I'd be lying if I said I hadn't wished I was much younger her but I am happy just to know she's happy"

"That's the problem! Whenever I hear her on the phone with her friends she's comparing him to you and telling them how easily you make her cum and that you even made her squirt." "You know how it makes me feel to hear my daughter talk about all the orgasms you gave her?"

"Ummm not sure"

"It makes me jealous! I shouldn't be listening to her on the phone talking and get wet."

"Annie I'm not really sure what I'm supposed to be saying here"

"I've heard every detail about all the things you've done to her and tbh I get it. I've seen my husband checking her out too sometimes I've even tried wearing her clothes and talking dirty to him about her but he is kinda vanilla and not very sexual"

"Not sure what I can do to help any of that!"

"My husband goes away for work for weeks at a time and even when he is home he has e.d and I'm lucky if I get laid once a month with his tiny dick, we have an open marriage he can do what he wants out of town and I try to have fun whenever I can."

"Interesting arrangement you've got but I'm still not sure how this has anything to do with me."

"Can I have another beer?"

I bent over to grab another beer and when I turned back around she was standing right beside me with her t shirt off. She has a black see through bra on and her tits were surprisingly bigger then I'd have guessed. Perfect quarter sized nipples looked fully erect and suckable. I put the beers down and pulled her toward me. We collapsed onto the couch and started making out.

Her skin as so soft and smooth and her body was firm and toned. I could definitely feel that she worked out a lot and was shocked how horny she was.

"I want you to use me and get all the pleasure you need" I told her. "I'm gonna sit on your face and you better make me squirt too!"

She stood up and started undoing her pants I sat up and when her pants hit the ground I stood up

and lifted her over my head and put her down on my shoulders.

I plunged my tongue into her and she groaned. Her pussy was soaking wet and it didn't take long to get it twitching and oozing. I sat her back onto one of my tools chests and starting sucking her clit. And working her pussy with my finger. Didn't take very long but I heard the familiar pap pap pap sound right before she gushed all over my face.

She giggled and said omg "I want more" as she hopped down.

I sat down on the couch and she stood in front of me then stepped up and straddled my face.

"Stick your filthy tongue out"

She sat on my tongue like it was an eager dick.

After fucking my face for a few minutes she started to really moan and groan. "Don't forget my ass she growled and leaned further forward. I started tongue fucking her asshole and used my left hand to make circles on her clit.

"Don't stop I'm gonna" and gush....i thought she was just full on pissing on me but she soaked my beard and the entire front of my tshirt as wet.

"Fuck your good at that, I see why my daughter brags to her friends" "as punishment for fucking my daughter I'm gonna leave now and make you wait for your turn!"

"The fuck you are!" I stood up and pushed her down.

As soon as she turned her face toward me I pulled my cock out of my track pants and stuffed it in her mouth.

She didn't resist much and had some serious skills. When she started really sucking it I asked "do you like tasting what was in your slutty daughter?"

She seemed to suck hard and stopped pulled it out circled the prick with her tongue and asked "so who sucks better?"

Oh you suck better and much more eager I replied.

She started to deepthroat me and I knew I wasn't gonna hold out very long at this rate. I noticed she was rubbing her pussy so I picked her up and sat her on the arm of my couch. Her pussy was almost identical to her daughter's bald and kinda of puffy and fat looking. I rubbed my prick up her fold and felt it open. Without any more teasing I buried myself balls deep in her and she cried out. I could feel my prick bashing her cervix. She locked her legs around my waist and I started just pounding her. Her nails dug into my back and I felt her tiny hips start gyrating. "I'm coming" she panted and I sped up.

Her pussy convulsed tightened then pushed me out. I reached down to reinsert but her hand beat me to it and guided me to her perfect tight asshole. My excitement got the best of me and I stuck my prick in. She screamed and it made me even harder.

I could only get my cock halfway in her before she stopped me but it was so tight I only managed a few pumps and I started spurting hot cum into her ass.

With each twitch I inched deeper and deeper by the time I was done coming I was all the way in her.

"Holy fuck that was amazing I said"

"I'm impressed too" she said

I pulled out of her and watched my cum ooze down her leg and we both got dressed.

She stuck around another couple hours and we've hung out a few times since.

It's unusual to say that I had the daughter first but as much fun as she is her mom is much more skilled and now I need to try both at the same time.

Annie said I should keep that one a fantasy but let's be honest this is all fantasy to some people just glad I got to live some of it.

\*\*\*\*

I don't as sitting on my couch doing bong hits watching a movie when my phone buzzed.

"Do you know how fucked up it is to hear my mom tell my aunt about you making her squirt?" "Your lucky my step dad isn't home and I've got a bf now or I'd be jealous and that could be bad for you!"

My heart skipped a beat and I was overwhelmed with rage. This little slut is threatening me.

"I think we need to talk" I replied

Meet me at the back of my garage in 20 mins. I watched her come down the driveway on my camera feed to the tv. She had cut off Jean shorts with the front pockets hanging out and a tiny crop top showing off her tight stomach more than her tits.

Soon as she got to the door I opened it and pulled her in shutting the door. You're a man slut she said as she strolled around like she owned the place. 2/3 of her ass was hanging out the bottom of her shorts.

"Do you know how crazy it feels to hear your mom on the phone and be mad and turned on at the same time?"

Your mom came over to give me a piece of her mind but I clearly wanted a different piece, I responded.

"Now as for you making threats....you do realize that letting your dog eat your pussy is illegal and I mayor may not have video of that! And if your step dad gets in his feeling he's welcome to stop by and discuss it maybe we'd invite your mom over too and spit roast her like the slut she is. Did she tell your aunt I came in n her ass?"

Abby's mouth hung open she wasn't expecting to not get her way and hadn't remembered the dog I could tell by her eyes.

"Did you really fuck her ass?"

I nodded and walked to the fridge

You want a beer? She asked for some fruity cooler I never heard of let alone would buy.

I grabbed two corona and opened one as I approached her.

She took a big gulp and put the bottle down on my table I could see her thong sticking out when she stood back up.

I grabbed her by the throat and pushed her up against the wall. Kissed her softly and spun her around.

Undid her shorts and slid them down revealing her tiny 1/2" lace string thong. Grabbed it by the back and just ripped it off her tiny ass and stuffed it in her mouth as she looked back at me. She started to mumble something but I took a handful of her hair and without even a drop of spit buried my index finger knuckle deep in her asshole.

She shrieked and groaned but pushed back on my hand trying to work my finger deeper. Pulled down my shorts and soon as I pulled my finger out of her I stuffed my thick prick in. Felt like she jumped a few inches off the ground and was biting down on her panties.

I let go of her hair and reached around and made circles on her clit. After about a minute she was soaked and I pulled my cock out rubbed her wet cunt with it and then immediately put it balls deep back in her ass.

What followed felt like an out of body experience, I pounded her tiny body like she owed me money and the only way to get even was to break her hip. She frantically moved her hands around the walls looking for something to grab. She reached back and scratched the fuck out of my forearms. I grabbed the back of her neck and started fucking her even harder. Her tail bone was just smashing against me and she spit out her panties.

"I'm a slut like my mom fill my asshole with cum!"

Soon as it hit my ears I could feel myself getting close.

I reached around to work her clit again but she was already doing it. A second later she was soaking my floor and screaming I grabbed her shoulders pumped my load up her tight ass. When I stopped pulsing I leaned forward and whisper in her ear. "Doesn't matter what you say or who you date from now on that ass belongs to me and I'm going to do the same thing to your mom whenever I want too." "If you threaten me ever again I'll make you both watch each other and suck each others cum off my cock"

She bit her lip and moaned "I'm your slut and I'll never get brave again!"

I slipped out of her and watched cum ooze down her inner leg. She turned to go to my bathroom but she was uneasy on her feet. I told her to just sit down and went and got her a wet towel.

Her walk back up the driveway definitely had a different attitude then she had when she arrived but fuck was she cute. I felt like the luckiest man alive for the luck I've had the last few months.
